Pen and wash is a fresh and fun way of combining some watercolour techniques with your drawing skills. A wash is a term for a visual arts technique resulting in a semi-transparent layer of colour. A wash of diluted water colour paint applied in combination with drawing is called pen and wash. Pen and wash is a lovely free way of working, where the brush work is soft and loose, the pen work holds the images together and gives them strength, texture and movement.

Using lightweight materials makes this process perfect for for travel journalling or quick inspired sketches with some colour added, and scenarios where is a lot of movement and colour, pen and wash allows you to work fast and capture this.

This course takes learners further into the experience of working with pen and wash, adding some elements to the process, such as using different backgrounds, mediums, techniques and stepping into more complex tasks.
